ABOUT US

Reconstruct was founded in 2021 to help create a sustainable and just world by driving systemic change and empowering individual action.

We have a value-driven approach to business and are committed to helping our clients solve complex business problems and reach their goals through sustainable means. Our goal is to provide affordable sustainable solutions that improve our clients' competitiveness and ability to mitigate climate change.

BUSINESS CONSULTING

Let's formulate and implement your sustainability goals together! We work with a wide network of highly motivated and qualified consultants who will be expertly matched to your project needs.

Our approach:

- Identify areas of opportunities for sustainability in your business.
- Build effective strategies with our data-driven insights.
- Provide strategy recommendations and a step-by-step implementation plan.
- Identify partners or vendors wherever required to fulfill your sustainability goals.

What to expect:

- Focus on values and purpose
- Creative Problem Solving
- Skilled Project Management
- Focus on implementability

Custom pricing based on scope, length of project, level of experience required and team size.

PROBLEM SOLVING SESSIONS

Have a specific, sustainability-related problem? Book a session and let's solve it together!

How this works:

- Call or email us to book a session.
- Fill out a short questionnaire to summarize the problem.
- Make the payment.
- Session 1: Understanding the problem in depth.
- Data collection and analysis: Typically 5-7 business days where further details and clarifications may be requested from you.
- Session 2: Presenting recommendations and next steps.

Pricing depends on
complexity of problem
and scale of business.

TEAM ENGAGEMENT & WORKSHOPS

Invest in your biggest asset – your workforce. We customize each workshop to best engage with your team and deliver impact.

Choose from a wide range of workshops and activities designed to engage your team on all things sustainability.

Our offerings:

- Sustainability Champions Program – have your team compete on sustainable tasks to earn points redeemed for incentives.
- Sustainable Skills Training Program – a series of workshops to upskill your team on all things sustainability.
- Office Recycling Drive – see immediate impact through gamified waste segregation.
- Awareness Campaigns – onsite stalls and email awareness campaigns.

Custom pricing based on program and number of participants.
